32,000 Year Time Line

Goals:

- to identify major historical periods and how they may overlap with each other
- to identify the years 1AD and 2010 AD on a timeline
- to identify the passage of time and compare the length of time of different historical periods

Identify:

- Ice Age
- Late- Paleolithic (Stone Age hunting & gathering)
- Neolithic (Stone Age simple farming)
- Rise of Civilization (metal working, cities, population growth)
- Civilization (complex, highly-organized societies with writing)

(scale: -------- = 2,000 years (approx)

30,000 BC 15,000 7500 3750 1 AD 2010 AD
|----------|----------|----------|----------|--------|--

A) Late-Paleolithic Age (Stone Age hunting & gathering)
>>>>--->>>

B) Ice Age |----------|
26,000 BC 16,000 BC

C)Neolithic Age (Stone Age simple farming) 9,000 BC (begins)
|---------->>>

D) Rise of Civiliziation (metal working) 6,000 BC (begins)
|---------->>>

E) Civilization (complex society with writing) 3,200 BC (begins)
|---------->>>

F) United States Independence 1776 AD
|-->>

G) Model T automobile 1909 AD
|-->>

32,000 Year Time Line

Instructions: Match the historical period to the location on the timeline

A) Ice Age
B) Late- Paleolithic (Stone Age hunting & gathering)
C) Neolithic (Stone Age simple farming)
D) Rise of Civilization (metal working, cities, population growth)
E) Civilization (complex, highly-organized societies with writing)

(scale: -------- = 2,000 years (approx)

30,000 BC 15,000 7500 3750 1 AD 2010 AD
|----------|----------|----------|----------|--------|--

Match the historical period as listed above to the below periods on the timeline:

1. ____ 30,000 BC
>>>>--->>>

2. ____ 26,000 to 16,000 BC
|----------|

3. ____ 9000 BC
|----------->>>

4. ____ 6,000 BC
|----------->>>

5. ____ 3,200 BC
|----------->>>

Extra Credit: mark on the timeline the year of American Independence, 1776 AD
